

FUSION ORCHESTRA

NU JAZZ

"Firmness and masculinity of the rhythm combined with tenderness and sensory sounding of the keys. In this music we can trace some philosophy, some clearness, some balance between any extreme points and exotic features..."

CDBaby.com

"I find myself coming back to this site and listening over and over. Really fine writing and playing."

Steve Mohacey , United States

"Great stuff. Music like this is the reason sequencers will never kill a truly talented live musician."

Slam, United Kingdom

"You guys have a very clean and polished sound. Excellent. The dynamics are amazing. You sound like you are telepathically tight in your breaks and turns. And the sound is moving and soothing at the same time. A very nice contrast. Excellent indeed!!!"

Gregory Piere, United States
